It is announced that the official publication of the result of the late election in Virginia will be promulgated by General Canby in about two weeks. The General impression is that the new State officers will be installed very soon thereafter. On this point there it some difference in opinion. An ordinance of the convention which framed the newly adopted constitution requires that the first Governor elected under its provisions shall be inaugurated as early as possible after his election, while the constitution itself fixes the day for the inauguration of his successors on the Iris announced that the official pubinauguration of his successors on the list day of January succeeding the election. completed arrangements for building the road from the Pennsylvania line through the heart of West Virginia to Charleston, the future Capitol, thence to the Kentucky line at the mouth of Big sandy." The Journal says:

The bonds of the company are secured by a mortgage of all the rights, franchises, &c., belonging to said road under its charter, and are to be further secured by the endorsement of the great Pennsylvania Central Railroad Company. The Hon. John M. Phelps, one of the Directors of the West Virginia Central Company, left this place on Monday evening for the purpose of visiting the different counties through which the road will pass, and having the mortgage referred to, recorded in those counties. These facts taken in connection with that, that the stock of the Pennsylvania Central is at a high premium, will be a sufficient inducement to capitalists to take the bonds of the company, as a safe investment, and will, without doubt, insures of the company, as a safe investment, and will, without doubt, insure a speedy sale for them at little or no discount."

THE KIDNEYS.—THE KIDNEYS ARE
two in number, situated at the upper
part of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the
interior, and the Exterior.
The anterior absorbs. Interior consists of
tissues or veins, which serve as a deposit for
the urine and convey it to the exterior. The
exterior is a conductor also, terminating in
a single tube, and called the Ureter. The
ureters are connected with the bladder.
The bladder is composed of various coverings or tissues, divided into parts, viz: the
Upper, the Lower, the Nervous, and the
Mucous. The upper expels, the lower retains. Many have adesire to urinate without the ability; others urinate without the
ability to retain. This frequently occurs in
children.
To cure these affections, we must bring
into settor the muscles, which are appared by eminent counsel, gave an affirmative decision, and, under this award, the French company paid the stipulated sum for the New York grant, which,

in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

The GRAVEL.—The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remnin; it becomes faverish; and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROFRY is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarcs; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.—Helmbold's highly concentrated compound Extract Euchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, scanty screetion, or small and frequent discharges of water: Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase of color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into nealthy exercise, by which the watery, or calcarcous, depositions, and all unnatural enlargements, as well as pain and inflamation, are reduced, and it is taken by men, women, and children. Directions for use and diet accompany.

It is barely possible that the "unrepentant" in Virginia, who went in for Walker for Governor, may have occasion for wishing they hadn't. Indeed, it begins to look as though they had already begun to open their eyes to the possibility that the Governor elect is not a man so much after their own hearts as they supposed. For instance the following quoted from the Richmond Enquirer of the 14th:

Really it is about time to ask if the people have not made a mistake in electing Walker to get rid of Wells, installed to the constitution, as the Ecquirer proved them to do.

DRE, LIGHTHILL & REID:

GENTLEMEN .—Your treatment for the cure of Catarria, of which I was afflicted, has proved a perfect success; and I can say in fall confidence that I believe it is a radical cure. I suffered beyond description. I had pain in my head, dimness of sight, and my hearing was obstructed at times so that I could hardly hear, my breathing was rendered laborious by the impacted lumps in my head and throat, so that I had to sleep with my month open. At times there was such a ringing in my ears it nearly set me crass. I had been pronounced incurable by some of the most eminent physicians that I applied to; but I am proud to state the painless treatment of Dfs. Lighthill & Reid has proved a perfect-success, and would recommend all the afflicted to give them a call.
